A birthday letter to find

Opening letter - Read this together, then give your child Clue 1.

Dear Mia,

The Birthday Post wrote a letter just for you. But on the way, a big gust of wind tore it into pieces and blew them all around your home!

Will you help us find them? Your grown-up has Clue 1. Follow each clue to a hiding place. At every stop, pick up a piece of your letter and take it with you.

There are 4 pieces, one for every year of you! A birthday surprise is waiting at the last stop, too. Put your pieces together and read your birthday message. The half circles on the edges show which pieces fit.

You can ask for help, look together, or take a break. Your birthday letter is waiting to be found.

Love, the Birthday Post
